Author Index, Vol. XXII, 1958

	Page		Page
Bohman, V. R.	63	McConnell, Ben	51
Budde, Sister Mary Laurence	73	Meredith, Howard V.	1
Coidan, Rosette Spoerri	225	Meredith, Matilda	1
Devine, Rosemarie	299	Mun, Alto	9
Ensminger, M. E.	269	Näf, Ulrich	167
Hafez, E. S. E.	269	Nelsen, Olin E.	109, 189
Hellwig, C. A.	31	Saelhof, Clarence C.	51
Hunter, J. E.	63	Schjeide, Ole Arne	265
Hurley, Sister Maureen Perpetua	125	Simons, Sue	265
Jacob, Joseph	17	Simpson, Maxwell	51
Katzberg, Allan A.	181	Sokoloff, Boris	51
Kidwell, James F.	63	Sung, Chil Choi	231
King, R. C.	299	Thommes, Robert C.	243
Kosin, I. L.	9	Toney, Marcellus E., Jr.	35
Kraus, Bertram S.	231	Tweedell, Kenyon S.	291
Manner, Harold W.	93	Wade, M. A.	63
Marsh, W. R.	99	Welch, J. W.	31
Mauer, R. E.	269	Whiting, Anna R.	229
McCashland, B. W.	99	Wilkinson, P. N.	31

Subject Index

	Page
Achromatic spindle as indicator of protoplasmic poisoning	181
Allantoic and amniotic fluid, volume of	286
Allium	181
Ascorbic acid analogs, effect on experimental cancer	51
effect on nucleic acids	51
Astyanax mexicanus	74
Atmospheric pressure, effect on chick embryo development	109
Bibliography on the Effects of Ionizing Radiations on Plants (Book Review)	229
Blood cells of Crustacea	35
Blood glutathione levels	63
Body size, human, measures of	1
Body traits, roentgenographic measurement	2
Bone and teeth, effect of Paroidin on	76
Callinectes sapidus	36
Cambarus bartoni	36
Cervical carcinoma, tissue culture of	226
Chick embryo, acceleration of development	189
hypophysectomized	243
irradiated	265
lack of glycoprotein response in	265
thyroid gland	246
Chilomonas paramecium	99
Colchicine, effect on *Drosophila* germarium	28
effect on nurse cell nuclei	28
effect on ovarian growth	28
Colchicine induced sterility in *Drosophila*	17

Colchicine induced sterility in *Drosophila*	17

Page

Correlation matrix of human embryonic growth 234
Correlation of
blood variables in sheep 66, 67, 70
growth components of human skeletons 242
measurements of turkey embryos 12
statistics on growth of American boy 4, 6, 7
Covariation of size
and absolute gain 2
and percentage gain 5
Cortisone acetate,
effect on salamander limb regeneration 93
Crayfish, blood cells 36
lymphoid type 37
monocyte type 40
granulocyte 41, 44
Criteria for detection of protoplasmic poisoning 188
Crocker rat carcinoma,
growth of 56
PNA and DNA content 55
Crustacean blood,
cell types 36
stem cell 49
Cyanide adaptation in *Chilomonas paramecium* 99
2-Deoxyglucose, effect on tumors 60
Development of vascular pattern 261, 262
Drosophila melanogaster 17
oogenesis 299
Effect of atmospheric pressure on embryonic development 189
Effect of low oxygen levels on central nervous system 123
Effect of nutrition in development of body organs 284
Effect of sex on prenatal development and placentation 281
Electron microscopy of *Drosophila* ovary 300
Embryonic growth as affected by atmosphere 191–193
Endocrine gland of chick embryos,
vasculogenesis in 243
Explosive refractile granulocyte of crayfish 41–44
Extra-embryonic tissue formation,
relation to primitive streak 207
Factorial analysis of prenatal growth 231
Fatty acids,
effect on Rous sarcoma virus 215, 219
Fish,
effect of parathyroid extract on 73
Fish kidney,
effect of parathyroid extract on 77
Foetal development of the pig, ... 269
effect of maternal environment on 269
Foetal endocrine system 279
Foetal organs,
development of 276
weight of 277
Foetal sex ratio 282
Foetal skeletal system,
effect of maternal nutrition on 275
Formulae for calculation of human growth 232, 233
Frog embryo,
acceleration of development 189
effect of partial pressure on 189
Gastrulative mechanism, relation to primitive streak 203
Genetic factors affecting hatchability 9

	Page
Germarium, morphology of	301
Glioblastoma multiforme, tissue culture of	226
d-Glucoascorbic acid, effect on tumors	60
Gluthione levels in blood of sheep	63
Glycolytic inhibition of tumor growth	51
Glycoprotein in embryonic development	265
Growth of explanted turkey embryos	13
Growth, measures of	1
Growth of protozoa, effect of potassium cyanide on	103
Hatchability and	
environmental factors	9
genetic factors	9
maternal factors	10
nutrition	11
Histology of the thyroid gland	31
Homarus americanus	36
Human neoplastic tissue, method of culturing	225
Human skeleton, prenatal growth	231
Hypophysectomized embryos	250
Increased pressure of O_2, effect on embryonic development	211
Inhibition of metamorphic processes by thiourea	161
Integument, effect of parathyroid extract on	75
Irradiated chicken embryos	265
Kidney development of the tadpole	125
Lebistes reticulatus	73
Lens destruction by tumor implants	291
Lens reconstitution	291
Lentoid formation	297
Longissimus dorsi, Measurements of	278
Media for growth of embryos *in vitro*	11
Mercuric compounds as mitotic poisons	181
Mesodermal form-building movement	202
Metabolic effect of cortisone acetate	93
Metabolism in cyanide-adapted cells	107
C-mitosis following exposure to organic mercurials	187
Morphology of Crustacean blood cells	35
Mouse sarcoma 180, growth of	57
Mus	181
Neoplastic tissue, culturing of	225
Nicotiana bonariensis	169
Nicotiana forgetiana	169
Nicotiana hybrids, tumor formation in	167
Nicotiana langsdorffii	168
Nicotiana paniculata	168
Nicotiana rustica	168
Nicotiana sanderae	168
Non-tumorous combination of *Nicotiana* hybrids	173

Page

Nuclear DNA content of rat carcinoma 58, 59
Nurse cell nuclear envelope 308
Nutrition and hatchability 10
Onion root meristems,
response to mitotic poisons 184, 185
Oogenesis,
colchicine-induced 26
Oogenesis in *Drosophila melanogaster* 299
Oöplasm,
electron microscopy of 324
Ossification centers,
microscopic measures of 273
Ovariole of *Drosophila*,
diagram of 302
Ovary,
increase in size 25
submicroscopic morphology of 299
Oxygen levels and primitive streak development 113, 114, 115
Oxygen levels concerned with development of embryonic rudiment 120
Parathyroid extract,
effect on teleost fish 73
Partial O_2-pressure,
effect on frog embryo 194
effect on eggs of *Rana pipiens* 198–200
effect on eggs of *Rana sylvatica* 196–197
Phenyl mercuric hydroxide,
effect on mouse cornea 183
Pig development,
effect of nutrition on 288
Pig embryo, ... 269
development of ossification centers 272
Placental membrane,
weight of 286
Plasma elimination in tissue culture 225
Pregastrular movement,
in bird embryo 208
in lower chordates 208
Premarin,
effect on thyroid gland 31, 32
Prenatal development of the pig 283
Prenatal development of skeletal system 274
Presumptive entoderm,
dynamic movements of 202
Primitive streak activity 189
Primitive streak development in relation to O_2 pressure 109
Rana palustris 291
Rana pipiens 291
Rana sylvatica 126
Respiration of *Chilomonas*,
inhibition by potassium cyanide 104
Respiratory poisons,
effect on root cells 183
Retarding effect of low oxygen levels on development 122
Rous sarcoma virus,
effect of fatty acids on 215
inactivation by fatty acids 220
Serum glycoprotein 266
Serum polysaccharide 267
Sheep,
blood glutathione levels in 63

Page

Sheep blood,
total cell count 64
hemoglobin determination 64
hematocrit 64
Sprague-Dawley rats 31, 32
Sterility in the female fruit fly 17
Tadpoles,
effect of thyroxin on 126
Technique,
for preparation of pig embryos 272
for tissue culture without plasma 227
Telophase nuclei as indicators of protoplasmic poisoning 181
Telophase response to mitotic poisons 186
Temperature,
effect on blood GSH level of the ewe 70
Tetrahymena pyriformis 99
Thyroid,
internal vascularity 243
rôle in pronephric regeneration 164
rôle in tadpole kidney development 125
Thyroid cells,
hypertrophy of 33
Thyroid glands,
histogenesis, vasculogenesis, and functional differentiation . . . 253–257
Thyroxin,
effect on development of pronephros 137
Tissue cultures of human neoplasms 226
Toxicity of ascorbic analogs 52
Toxicity of glucose analogs 52
Triturus viridescens 94
Turkey egg,
hatchability of 9
Turkey embryo,
growth *in vitro* 9
Tumor formation in *Nicotiana* hybrids 167
Tumor implants,
intraocular 291
effect on lens 291
Tumor-producing viruses 222
Tumor tissue,
effect of ascorbic analogs on 51
effect of glucose analogs on 51
Tumorous hybrids of *Nicotiana* 172
Ultimobranchial body in fish 84
Variation in body size measurements 1
Variations in development of unincubated blastoderms 112
Vasculogenesis,
relation to histogenesis 252
Vasculogenesis in endocrine glands 243
Virus,
Rous sarcoma 215
Vitelline membrane of *Drosophila* eggs 318
Vitellogenesis,
cytosome in 313
nuclear emissions before and during 309
Weight of foetus,
effect of sex on 279
White leghorn hens 245
Wound healing in cortisone-treated salamanders 94, 96
